Office Action Summary	Application No. 09/955,923	Applicant(s) HUITEMA ET AL.	
	Examiner Douglas B. Blair	Art Unit 2142	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Claims 1-11 are currently pending in this application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent

Application Publication Number 2002/0073204.

4. Claims 1-11 are rejected for the same reasons presented in the previous office action.

Response to Arguments

5. Applicant's arguments filed 10/3/2005 have been fully considered but they are not persuasive. The applicant argues the following points: a) The Dutta reference does not disclose calculating a category identification for the group; b) The Dutta reference does not disclose providing the category identification to a peer; and c) the applicant goes on to argue that Dutta does not teach the rest of the dependent claims.

6. As to point a), The cited portion of the reference clearly show calculating "category identifications" for a group, such as Medicine, Geology and Astronomy.

Art Unit: 2142

7. As to point b), paragraph 63 states, “a medicine-related search query that is sent to the characterized node may result in a search hit at the characterized node with its “Medicine” information category.

8. As to point c), the claims as whole are broad and non-specific. It is believed that Dutta and the Gnutella protocol, whose features are inherent to the invention of Dutta, teach the dependent claims. The Dutta reference would not have been applied if it was not believed to teach the claimed subject matter. The applicant’s arguments merely allege that Dutta does not teach the claimed language rather than showing how the applicant’s invention, as characterized by the claim language, is different from Dutta. In other words, the applicant is arguing what the invention is not while providing no concept of what the invention is.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
